FOR IMMEDIATE RELEASE

Pinecrest to hold Stormwater Master Plan Open House for residents

Pinecrest, Fla. – Pinecrest has organized a Stormwater Master Plan Open House for residents to become familiar with project's planning process, the project's schedule, and its objectives. Pinecrest encourages residents to bring questions as the engineers developing and implementing the Stormwater Master Plan will be present and available to address questions.

The Stormwater Master Plan Open House will take place on Tuesday, September 30 from 7:00 to 9:00 p.m. at Evelyn Greer Park, 8200 SW 124th Street. If one is not able to attend, stormwater questions can be emailed to stormwaterinfo@pinecrest-fl.gov. A second open house will be scheduled in early 2015.

Pinecrest has hired a consultant who is developing a Stormwater Master Plan in order to mitigate flooding issues in the Village's public right-of-way. The plan will identify current flood protection and water quality level of service within Pinecrest, rank and prioritize flooding areas, develop and rank flood mitigation projects to address the high-priority areas, and develop a capital improvement plan to implement the high-priority projects within a five-year timeframe. These projects will take into account current stormwater management systems and implement programs to maintain and improve these systems.
