### **FOR IMMEDIATE RELEASE**

*Pinecrest Gardens held wildlife themed "Nature Film Night" for children and adults that included educational displays and live-action documentary film*

**Pinecrest, Fla.** – Pinecrest Gardens hosted a Nature Film Night with DisneyNature's, Bears Friday, February 13th. Visitors enjoyed an educational and interactive indoor area where movie-goers visited local organizations to learn about different areas of wildlife conservation.

The Sierra Club had children design their own reusable bag in an effort to educate them about the dangers of plastics. The Croc Docs featured live animals and presented their alligator and crocodile research. Friends of the Everglades engaged visitors with information about the Everglades, water conservation and the South Florida environment. The Patricia and Phillip Frost Museum of Science presented a variety of animals from its Batchelor Wildlife Center. Guests also get a sneak-peek at the new Frost Science Museum, opening 2016 in downtown Miami's Museum Park.

"Bears is an epic story on a breathtaking scale. Follow a year in the life of a bear family as two impressionable young cubs are taught life's most important lessons. The movie's astonishing footage captures the fast-moving action and suspense of an endearing family learning to live life to its fullest in one of the planet's last great wildernesses," according to DisneyNature.

### **About Pinecrest Gardens**

Pinecrest Gardens is a premier venue for the arts, education and environmental conservation and preservation. It boasts 14 acres of native forested wetland, tropical hardwood hammock and native cypress slough hammock, attracting over 150,000 visitors per year. In October 2011, it was placed on the National Register of Historic Places making it historically significant on a local, state and national platform.
