FOR IMMEDIATE RELEASE

Learn how one can lessen the collective carbon footprint at Pinecrest's monthly Climate Change Workshop Series

Pinecrest, Fla. – Pinecrest spotlights climate change through a monthly workshop series that focuses on the most critical issues surrounding climate change that affect everyone. The series brings in expert guest speakers who are at the forefront of the most up-to-date information about climate change to inform and engage the community. Attendees will learn what can be done to lessen the collective carbon footprint through adaptation, mitigation and resiliency strategies.

This first-of-its-kind municipal workshop series dubbed Resilient Pinecrest is free and open to the public. The next workshop will be held Monday, November 2 at 7:00 p.m. in the Pinecrest Municipal Center at 12645 Pinecrest Parkway, Third Floor.

The November workshop topic is Energy Efficiency and Renewable Energy. Dr. Jack Parker, Florida International University Professor Emeritus of Environmental Science, Chemistry Engineering, and Computer Science, will explore and explain what greenhouse gases are, how we produce them and how we can reduce or eliminate our contributions to their production. He will also speak about renewable energy options.

Raul Vergara, owner of Cutler Bay Solar Solutions, will update the affordability of solar and the Property Assessed Clean Energy (PACE) program. The solar revolution is now highly competitively priced. Learn how to save money with all these renewable energy improvements that in turn will help save the planet.
